

# STEELE CREEK COMMUNITY TRAIL

## Imagine ...

... being able to safely walk or ride your bike to our stores, restaurants, library, schools, parks, workplaces, and your neighbors in the Steele Creek community. Community volunteers are working with government agencies, landowners, developers, homeowner associations, and businesses to connect our community with many miles of trails and bikeways to promote a sense of community and a healthy lifestyle.

We could use your support for this community project and welcome your thoughts, ideas, and support ... please email us the address below to find out how to get involved.
