Mecklenburg County NC  
Charlotte  
Steele Creek

The Steele Creek Community dates back to the 1740's and has been one of the fastest growing residential areas of Mecklenburg County. It also contains one of the highest employment concentrations in the county and is home to several recreation sites. The character of Steele Creek continues to change due to rapid residential, commercial, and other growth in the area. The Steele Creek Residents Association was formed in 1980 to protect the community, to ensure quality development, and to maintain Steele Creek as a great place to live, work, and play. The main purpose of this web site is to share information about services and activities of local government agencies and non-profit organizations in Steele Creek.

Join the Steele Creek Residents Association. Membership dues are \$10 per year. See [About the Steele Creek Residents Association](#).
