Increase public safety

- Reducing time from onset of emergency to fire personnel on scene is critical to positive outcome
 - House fires double in size every 60 seconds, more firefighters on scene faster, result in reduced loss of life and property
- Three firefighters provide higher level of care during life threatening and critical events

Firefighter safety

- Replacement of aged equipment to meet minimum standards set by National Fire Protection Association (NFPA)
 - Lack of capital funding in prior years has left a deficit

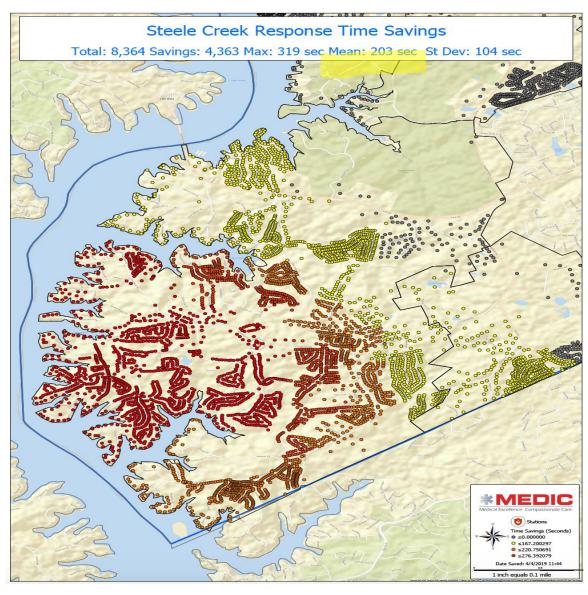

Rapid growth of community

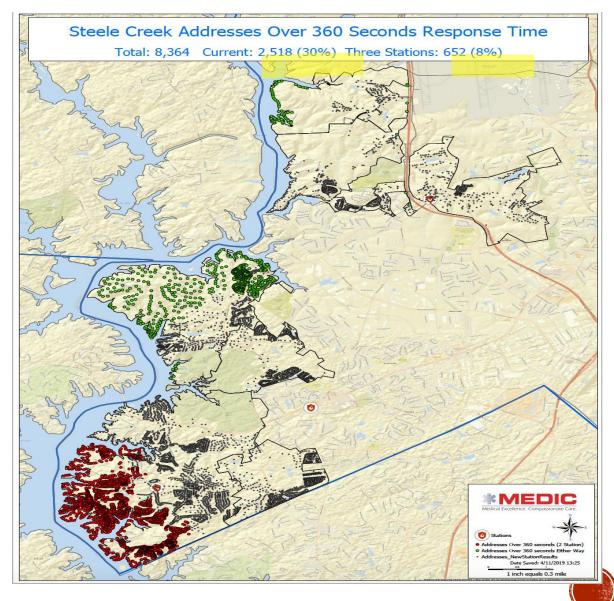

- Population increased over 125% since 2009
- Total incidents have increased over 100% the past ten years
- 2,000 new residences approved by city planning to be built
- Increased traffic congestion reduces response time in southern district
